*The calendar is subject to change without notice. See www.sysmannews.com/calendar.asp for the latest version.

**Systems Management News will distribute extra copies at additional events in 2009.

The dates of those shows have not been set by the event organizers.

Each issue, readers will also see these regular columns and departments:

DATA CENTER NEWS

The Data Center News section of each issue of Systems Management News provides new products as well as “news you can use,” providing practical insight into issues affecting data-center and IT-operations managers.

MANAGING SQL SERVER

The latest news about SQL Server, as well as suggestions for leveraging its extensibility and exploiting third-party plug-ins, add-ons and management solutions.

MANAGING WINDOWS SERVERS

Advice and guidance for data-center and sys-admin managers responsible for the effective operation of Microsoft servers and server applications, encompassing the operating system, Microsoft applications and management tools.

MANAGING SHAREPOINT

Getting the most from SharePoint, with case studies, discussions of applications, and news about Microsoft and third-party management tools.

GUEST VIEW

Each issue of Systems Management News concludes with a Guest View column from an industry contributor.
